# ASTORIA

*Natural Feeling spa*

---

*Every now and then, escape to a special place where you can tap into new energy, rediscovering the lightness of living. The search for balance between "perceptions and moments" is the concept behind the general development strategy of our entire spa project.*

*The vision of wellbeing as a regular appointment turns into a fluid experience of continuous stimulation towards personal growth. We want to be inspired by nature to harmonize your thoughts, your body and your heart, through holistic journeys that will allow you to feel a genuine desire to take care and pamper yourself.*

*Wellbeing is not to be found just in our spa as a physical place, instead it becomes the value proposition of our entire Resort. Holiday becomes a new lifestyle, through every moment you experience. After becoming part of the rooms and common areas of the hotel, our park enters the spa, establishing a new metaphorical and physical relationship between the interior and the exterior.*

*"Passion meets knowledge,  
creating the perfect recipe  
to encounter the heart of each person,  
with the aim of allowing people  
to perceive the authentic wellbeing  
of our nature."*
